

5 Ways YOU can support YOUR SK Dance Program!

1. Support the SK Instructor in keeping the students focused.
2. Get involved! Learn a few new moves with your students!
3. Give your students the opportunity to succeed. Do not allow students to sit out of class for any reason other than medical or religious.
4. Write down the names of the moves your students learn and use them later in your class!
5. The students do not have a monopoly on FUN... you can have some too!
